

BASK Supervision of Children Policy

At **BASK** we aim to protect and support the welfare of the children in our care at all times. The manager is responsible for all staff receiving information on health and safety policies and procedures in order for them to supervise the children in their care suitably.

Supervision

We ensure that children are supervised adequately at all times, whether children are in or out of the building:

Making sure that every child is always within the sight and/or hearing of a member of staff.

Ensuring children are fully supervised at all times when using water play/paddling pools

Taking special care when children are using large apparatus e.g. a climbing frame, and when walking up or down steps/stairs, including having one member of staff supervising large outdoor play equipment at all times. Making sure staff recognise and are aware of any dangers relating to bushes, shrubs and plants when on visits/outdoors

Supervising children at all times when eating.

Supervising children carefully when using scissors or tools including using knives in cooking activities

Increasing staff: child ratios during outings to ensure supervision and safety (please refer to the Outings policy)

Strictly following any safety guidelines given by other organisations or companies relating to the hire of equipment or services e.g. hire of a bouncy castle. A member of staff **MUST** supervise the children at all times.
